

TSSI: 2024 Soybean Growers' Registration Report

Published: 29 December 2024

The Tanzania Sustainable Soybean Initiative (TSSI) is excited to share the 2024 Soybean Growers' Registration Report, a comprehensive study highlighting the opportunities, challenges, and growth potential of soya bean production in Tanzania. This report is vital for policymakers, investors, and agricultural stakeholders.

Discover detailed insights into farmer demographics, production trends, regional clusters, and marketing dynamics, and learn how targeted interventions are transforming Tanzania's soya value chain.

 **Read or download the report.**
